

CYBER SECURITY

11th to 12th June 2024, Grandium Hotel, Prague, Czech Republic

The Workshop will be organised by WANO Paris Centre.

Background

Cyber Security is a growing concern of nuclear operators. It raises multiple challenges in terms of internal and external governance, human performance, constantly evolving and new technologies. Cyber Security was chosen by WANO Interface Officers as one of priority subjects of the Industrial Learning and Development programme in 2024.

Topics

Topics proposed to be discussed during the workshop were identified with the support of experts from several WANOPC members. They are as follows:

- Cyber Security Governance
- Cyber Security aspects of Emergency preparedness
- Supply chain challenges

The agenda of the workshop will be finalised according to proposals for testimonies received from attendees.

Objectives of the Workshop

This workshop explores approaches, organisations and practices relative to Cyber Security with the aim to support plants in either bridging gaps related to that topic or achieving a further performance.

Through sharing information, WANO perspectives, as well as member testimonies, it should be the objective of each delegate to take away from the workshop at least one improvement technique or practice that they will implement at their own station or company.

Breakout sessions

Breakout sessions will be used to allow time for structured interaction with colleagues and to permit problem-solving techniques to be applied to real life situations.

Target group

Cyber Security and information system managers and coordinators from WANO Paris Centre members.

Arrival and Departure

Participants should arrive at the hotel on the evening of **Monday 10th June 2024**.

The workshop will end around **17:00 on Wednesday 12th June 2024**, which should be the earliest time for departure.

An evening “get together” event will take place in the Grandium hotel on **Tuesday 11th June 2024**.
