

MANAGEMENT OF AGEING COMPONENTS

28th to 29th May 2024, Hotel SB Diagonal Zero, Barcelona, Spain

The Workshop will be organised by WANO Paris Centre.

Background

Ageing management is a continual preoccupation of Nuclear Industry since a couple of decades. A lot of programmes, studies and exchanges of experience were conducted in national and international levels. Management of ageing components was proposed by WANO Interface Officers as one of priority subjects of the Industrial Learning and Development programme in 2024.

Topics

Topics proposed to be discussed during the workshop were identified with the support of experts from several WANOPC members. They are as follows:

- WANO Good Practice "Excellence in Ageing Management" GP 2020-31
- Ageing of electrical cables
- Ageing of I&C components with a focus on qualification of I&C beyond the initially expected lifetime
- Ageing of Civil work structures

Topics and agenda of the workshop will be finalised according to proposals for testimonies received from attendees.

Objectives of the Workshop

This workshop explores approaches, organisations and practices for management of ageing components with the aim to support plants in either bridging gaps related to that topic or achieving a further performance.

Through sharing information, WANO perspectives, as well as member testimonies, it should be the objective of each delegate to take away from the workshop at least one improvement technique or practice that they will implement at their own station.

Breakout sessions

Breakout sessions will be used to allow time for structured interaction with colleagues and to permit problem-solving techniques to be applied to real life situations.

Target group

Engineering and Equipment reliability managers, coordinators and engineers of ageing, Long term operation and/or preventive maintenance programmes from WANO Paris Centre members.

Arrival and Departure

Participants should arrive at the hotel on the evening of Monday 27th May 2024.

The workshop will end around 17:00 on Wednesday 29 of May, which should be the earliest time for departure.

An evening “get together” event will take place on Tuesday 28th May 2024.

INFORMATION

28^h to 29th May 2024, SB diagonal zero hotel, Barcelona, Spain
