

MAINTENANCE FUNDAMENTALS

ADDRESSING MAIN GAPS TO EXCELLENCE

9 - 10 November 2020, [on-line event](#)

This is a re-announcement of a workshop initially planned as a normal meeting.

The Workshop will be organised by WANO Paris Centre

Topics and objectives

The main topics of the workshop will be the most common gaps to excellence in Maintenance identified in the recent WANO PC fleet analysis:

- Maintenance work preparation
- Maintenance Performance
- Knowledge, Core skills and training
- Leadership

It should be the objective of each delegate to take away from the workshop at least one improvement technique or practice that they will implement at their own site.

Programme

The methodology will be an overall presentation of the fleet analysis by WANO Paris Centre, followed by shorter complementary sessions addressing each of the above four gaps. Further, WANO Atlanta Centre, using relevant WANO and INPO references, will deliver a presentation and explanation of the term "Maintenance Fundamentals". There will be an opportunity for participants to submit specific questions in advance, to have them addressed.

Interactions

Participants will answer polls/questionnaires in advance and/or during the workshop, in order to use them as basis for shorter interactive session.

Target group

Maintenance managers/group heads on site and corporate level is the main target category. Other functions involved in or in driving change in maintenance are also relevant

Schedule

The on-line event will take place in two separate sessions:

- Monday 9 November from 13:00 to 16:00 CET
- Tuesday 10 November from 13:00 to 16:00 CET

INFORMATION

9 - 10 November 2020, **on-line event**

Workshop / Seminar language

The workshop / seminar language will be English.

Register on-line

Please, complete your registration online before **Monday 26th October 2020** at the following link:
www.wanopariscentreregistrations.com.

A confirmation letter will be sent to participants following their registration.

An electronic meeting invite will be sent to registered participants. The default software to be used is Zoom, which is the currently available option at WANO Paris Centre. Other solutions will become possible; if this is ready in time for this workshop, another selection may be done.
