

MAINTENANCE FUNDAMENTALS

ADDRESSING MAIN GAPS TO EXCELLENCE

November 10th -12th 2020, ANAV Headquarters, Spain

The Workshop will be organised by WANO Paris Centre in collaboration with ANAV, Spain.

Topics

Participants are welcome to offer their presentations with the aim to stimulate discussion. The main topics of the workshop will be the most common gaps to excellence in Maintenance identified in the recent WANO PC fleet analysis:

- Maintenance work preparation
- Maintenance Performance
- Knowledge, Core skills and training
- Leadership

Objectives

Participants are encouraged to come to the workshop / seminar prepared to share their challenges and experiences at their site.

Through sharing information, it should be the objective of each delegate to take away from the workshop / seminar at least one improvement technique or practice that they will implement at their own site.

The update fleet analysis performed by WANO will be presented and subject to discussions.

Break-Out Sessions

Breakout sessions will be used to allow time for structured interaction with colleagues and to allow problem solving techniques to be applied to real life situations.

The breakout sessions will be centred around the four main gaps presented in the WANO PC fleet analysis.

Target group

The Workshop / Seminar will provide a platform for experience exchange and networking among the representatives of WANO Paris Centre members. Maintenance managers/group heads on site and corporate level is the main target category.

Other functions involved in or in driving change in maintenance are also relevant

Arrival and Departure

Participants choosing accommodation can make their plans to arrive at the hotel on Monday November 9th, the evening before the workshop.

A get-together will take place on the evening of the first workshop day, Tuesday November 10th.

The workshop is going to end at 12:00 on Thursday November 12th, which should be the earliest time to depart.
